The Automotive & Composites Divisions of the Society of Plastics Engineers (SPE) International invite you to attend the 2nd Annual Automotive Composites Conference on September 12-13. Our focus will be on application development & case histories of successful technology implementation to reduce weight, improve safety, & increase manufacturing productivity with both thermoset & thermoplastic composites. The conference will consist of technical paper sessions, VIP panel discussions, & keynote speakers. Sessions already announced include:

- New Composite Materials & Processes,
- Enabling Technologies for Composites (Simulation/Design),
- Biocomposites (Natural-Fiber Composites),
- Painting & Decorating Composites,
- Truck & Transport,
- Bonding Composites, &
- Composites for Fuel Cells & Hybrid Powertrain.

September 12-13

MSU Management
Education Center

811 W. Square Lake Road Troy, MI

For additional information on the Automotive Composites Conference, visit www.speautomotive.com or contact Conference Chair, Michael Connolly, Huntsman Polyurethanes at 1.248.322.7416, or write the SPE Automotive Division, 1800 Crooks Road, Suite A, Troy MI 48084, USA.
